

AUDIT CHANGE LOG - FORMAT SPECIFICATION

ComplianceDocs - v1.0, August 2026.

One row per operational action, per site. Exported monthly per agency as CSV.

CSV schema

entry_id,date_utc,site,action,object,before,after,operator,source,result,notes

Rules

- Append-only. No edits or deletions; corrections are new rows referencing the entry_id.
- Every restore and every failure MUST have a note explaining cause and verification step.
- Retention: 12 months online, then archived export retained for contract term + 12 months.
