

EAA Accessibility Statement Template

ComplianceDocs - v1.0, August 2026 - Not legal advice - have counsel review before use.

About this template

The European Accessibility Act (EAA) entered into force June 28, 2025. From June 28, 2025 onward, products and services that fall under the directive must publish an accessibility statement that meets EN 301 549 standards and the implementing national laws of each EU member state.

This template gives you a compliant starting point. Fill in the bracketed placeholders, adjust the conformance status to match your actual level, and publish the statement on your website or with your product.

Accessibility Statement for [Product/Service Name]

Date: [DD Month YYYY] **Last reviewed:** [DD Month YYYY]

Commitment

[Organisation Name] is committed to ensuring digital accessibility for all users, including persons with disabilities. We are actively working to improve the accessibility and usability of [product/service/website name] in line with the European Accessibility Act (EAA) and harmonised standard EN 301 549.

Conformance status

We aim to support the Web Content Accessibility Guidelines (WCAG) 2.2 Level AA as our accessibility standard. Our current conformance status is:

- ☐ **Fully conformant:** All WCAG 2.2 AA criteria are met.
- ☒ **Partially conformant:** Some parts of the content do not fully meet the standard - see Non-accessible content below.
- ☐ **Not conformant:** Significant accessibility barriers remain - remediation is in progress.

Non-accessible content

The following areas do not yet fully meet EN 301 549 / WCAG 2.2 AA requirements:

Compatibility with assistive technology

[Product/Service name] is designed to be compatible with:

- Screen readers (JAWS, NVDA, VoiceOver, TalkBack)
- Browser zoom and text-sizing features
- Keyboard-only navigation

We cannot guarantee compatibility with outdated browser versions or assistive tools that do not support current web standards.

Features supporting accessibility

- Semantic HTML structure with heading hierarchy
- Alternative text on meaningful images
- Colour contrast meeting WCAG 2.2 AA minimum ratios (4.5:1 normal text, 3:1 large text)

- Focus indicators visible on all interactive elements
- Keyboard-operable controls without time-dependent input

Known limitations and workarounds

Assessment approach

[Organisation Name] assessed accessibility through:

- ☐ Automated testing (tool: [name])
- ☒ Manual expert review
- ☐ User testing with people with disabilities
- ☐ External audit by [name of third party]

Feedback and contact

We welcome your feedback on the accessibility of [product/service name].

- Email: [accessibility@example.com]
- Phone: [+45 12 34 56 78]
- Response time: within 5 business days

Formal complaints

If you are not satisfied with our response, you may lodge a formal complaint with the national enforcement authority:

- Country: [Denmark / Germany / ...]
- Authority: [e.g. Digitaliseringsstyrelsen / BFIT]
- Website: [enforcement body URL]

Preparation of this statement

This statement was created on [DD Month YYYY] and last reviewed on [DD Month YYYY].

Instructions

- **Fill in brackets** - replace all [bracketed text] with your actual details.
 - **Check conformance** - be honest about your current level. "Partially conformant" with a clear remediation plan is better than claiming full conformance you haven't verified.
 - **Publish** - place the statement at /accessibility or /accessibility-statement on your website. Link to it from the site footer.
 - **Review annually** - EAA enforcement requires the statement to stay current.
-

Disclaimer

This template is a starting aid, not a legal document. It does not constitute legal advice. Regulations and national implementation laws vary by EU member state. You should have the completed statement reviewed by qualified legal counsel before publication, especially if your organisation operates in multiple jurisdictions.
